Miscellaneous:

Patent 6,839,866: System and method for the use of reset logic in high availability systems.

Professional Experience:

- **June 1997 to present:**
Member, Newtown Volunteer Ambulance Corps
Secretary/Treasurer, three terms
- **December 2010 to December 2011:**
 - **Trustee**, Newtown Volunteer Ambulance Association
 - **Chief**, Newtown Volunteer Ambulance Corps.
Created multiple departments each responsible for a group of committees, replacing a structure where all committees reported directly to the Chief.
Split the Training Committee in two, to separate the function of Corps Training from that of New Member Training.
Created a purchase order system, so all purchases pass through a central purchasing group. Got more competitive pricing by joining a purchasing coop.
Decreased number of calls for mutual aid, from an average of 4 per month to 2 per month.
Created a Vision Statement for the Corps, through a strategic planning effort.
- **2004 to present:**
Founder, Mark Kenny Products Company, LLC, a designer and manufacturer of products for veterinary use.
- **1974 to present:**
President, Systems Essential Limited, a software consulting company. Consultant to such companies as SNET, MCI, IBM, Bedford Associates, EMC, ISO, NYNEX, Ericsson Information Systems, Ascom Nexion, Battery March
Filed incorporation papers with state, accounting, tax returns, payroll, etc., as well as software consulting with clients.
- **1966 to 1974:**
Employed by a variety of companies in roles from software to developer to chief architect. Employers included: Bunker-Ramo, Schlumberger, Pitney-Bowes Alpex, Bristol Division of ACCO, Cognitronics, Grumman Aircraft.
